LIVE FIRING RISK MANAGEMENT FORM

As part of a comprehensive risk management program, we must caution you that a live-fire session will be used to teach safe gun handling habits and marksmanship. Of course, every precaution will be taken to prevent injury, but you have a right to know about the risks involved.

Injury to the eyes can occur which is why all shooters will be provided with and must wear protective glasses. Firearms using gunpowder have the potential to damage hearing from exposure to repetitive noise. All shooters using powder operated guns will be provided with and must wear hearing protection. Careless shooters have the potential to cause additional serious injuries, so each shooter will be closely supervised.

Even though shooting is a very safe sport, it is important that you understand the risks and appreciate how careful we all must be to keep this way.

I _____ understand the risks involved and the need to listen for and follow directions. DATE: _____

I understand the risks involved and grant permission for my child to participate in the live-fire sessions. In the event of illness or injury, I grant permission for my child to receive medical treatment.

I give ___ or do not give ___ permission for Oakland Park Conservation Club to use photographs of my child on social media.
